

Overlock machine with automatic tape cutter

## JJ301 4GH-40M-2x4/ATC3/DC

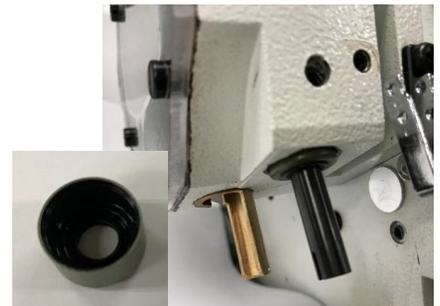

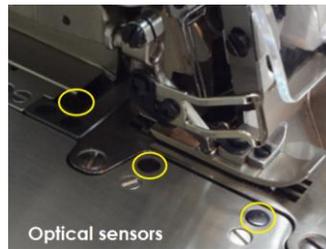

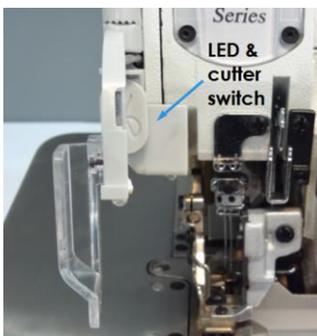

2 needles, 4 thread high speed overlock machine with automatic tape cutter with three sensors and air saving and the lint collecting device.

Equipped with scissors-type cutter, the machine can adapt many kinds of the reinforce-tapes and threads.

Using three sensors, the machine can minimize the thread loss and air loss. (the suction for threads only works after the cut)

### Features of the machine

1. Integrated LED light system
2. 3 sensors for precise cut and initial presser foot lift
3. User friendly LCD panel and switches (for change settings).
4. Full automatic function without using pedal switch (possible)
5. Fully sealed needle bar drive mechanism and oil seal mechanism to prevent oil leakage
6. DLC coated needle bar & upper looper bar for durability and oil leakage prevention
7. Energy saving direct drive servo motor

Model	Application	Material	Needle	No. of Threads	Gauge	Max. Stitch length	Differential Feed ratio	Presser Foot lift	Maximum Speed
JJ301 4GH-40M-2x4/ATC3/DC	tape binding	light to medium	DCx27 # 9	4	2mmx4mm	3.8mm	0.7~2.4	5.5mm	7500
