

FX4412PE-CD-UTC/DD

Cylinder bed, Multi-needle, double chain stitch machine with thread cutting device and elastic expanding device, Maximum 12 needles can be used. To prevent fraying, we introduce our condensed stitch mechanism which can be operated by lever.

4412 Gauge

1/4, 5mm, 3/16

Elastic expanding device (Option)

'RT-1' can improve the productivity

Features

UTC(Automatic Thread Cutter)system

Increase in productivity up to **160%**

- Reducing working hours of operators
- Less thread waste (Save approx.10cm per needle)

Saving labor cost

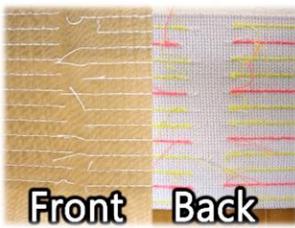

- No helper needed for trimming thread

Reducing the troubles

- Automatic needle positioning
- less needle breakage and thread snaps

Thread cutter

Front Back

Condensing function equipped

condensing device

- Thread cutting after condensing can further prevent fraying.

Adjust stitch length

- The conventional button type has been replaced with a lever type, easier to change stitches.

Operator friendly equipments

Oil filter

Blocking dirt and impurity to keep the oil clean
